5-6'Each \$3.25

6-8'Each \$4.25

Lawn Seed

We offer a special mixture of extra good quality Lawn Seed that we do not hesitate to recommend very highly. We mix only the best grades of seed which insures a good stand of grass. You cannot afford to take chances with your lawn. The best policy is to sow clean seed. In addition our Lawn Seed is Gro-coated. Gro-coat protection means the use of fungicides which disinfect the area around the seed. There is a growth stimulator added which is designed to increase early root development. Home owners tell us they get faster growth, larger plants and many more of them, when they sow Gro-coated lawn grass seed. We mix two grades of seed, one for ordinary seeding and another for shady spots. One pound of seed will sow approximately 250 square feet.

MEYERS LAWN MIXTURE contains 50% blue grass recommended by "Iowa State College" with 5% clover and 45% other fast growing PERENNIAL grasses.

per lb. \$1.00
5 lbs. \$4.75
10 lbs. \$8.50

KENTUCKY BLUE GRASS

GUARANTEE AND CONDITIONS

We are careful to keep our varieties true to name and will replace any portion of the stock that may prove otherwise, or refund the price paid for such portions. It is agreed that the original price shall be the maximum damages the purchaser is entitled to. Any material failing to grow will be resupplied at one-half the original cost of the stock provided we are informed of such failure prior to Sept. 1st following purchase.

These prices are for delivery at the nursery or to your residence in Waterloo or Cedar Falls. Out of city orders will be delivered F.O.B. to post office, express, and freight and truck line terminals.

25¢ delivery charge will be made on all orders less than \$2.00.

TERMS OF PAYMENT are cash on or before delivery of the stock, unless previously otherwise agreed upon. Remittances may be by check or any convenient form, payable to Meyers Nursery.

... Specimen Evergreens ...

ARBORVITAE

American, Thuja Occidentalis—A selected dark green, broadly pyramidal form grown from cuttings. It is the hardiest and most drought-resistant Arborvitae.

Globe—2½ to 4 feet. A dwarf form which makes compact globes without trimming.

Pyramidal—15 to 20 feet. Grows in columnar form with shearing. Brighter and darker green than the common Arborvitae. Much used in entrance, foundation.

Siberian—10 to 15 feet. One of the hardiest of all the Arborvitae, very compact, broadly conical in form and with dense dark green foliage.

JUNIPER

Chinensis, Chinese Juniper—20 feet. Resembles Red Cedar. Does not get red in winter.

Cannarti J. virginia cannarti—15-20 ft. A grafted form, clear green throughout the year. Needs shearing to make a close, regular pyramid. Unexcelled year round.

Dundee—A grafted narrow pyramidal form with compact regular growth without shearing.

Plumosa, Andorra Juniper—1½ feet. A rich, bright green in spring and summer, and attractive purplish bronze in winter.

Pfitzer—5 to 6 feet. A dwarf variety of the Chinese Juniper. The foliage is bluish-green and the branches grow out horizontally from the stem.

Sabina, Savin Juniper—4 to 5 feet. A bushy little tree with semi-erect branches and clear green foliage.

Virginia—25 to 30 feet. Sheared specimens of our native Red Cedar. Splendid blue or green summer coloring, purplish-red in winter. Thrives in poor dry soils.

PINE

Mugho, Dwarf Mountain Pine—3 to 5 feet. This makes a compact dome-shaped bush broader than high. Size apply to width rather than height.

White, P. Strobus—60 to 100 feet the softest foliage of the pines. Endures some shade and is the longest lived and largest growing pine.

Austrian—25 to 30 feet. Bright green at all times and endures city conditions exceptionally well.

SPRUCE

Black Hills—50 to 70 feet. A native of the Black Hills. It does very well over a wide range and makes the finest specimens of all Spruce.

Colorado Blue—Selected Blue Specimens or Shiners.

Norway Spruce—A rapid growing, thrifty Evergreen with wide adaptability as to soils and locations. This

FIRS

Balsam Fir—Beautiful, heavy, lustrous deep green foliage. Fine for ornamental planting and for "living Christmas trees". Also a good windbreak tree.

Concolor Fir—Long graceful needles, varying in color from light green to gray-blue. Tree grows compact and shapely.

Douglas Fir—A hardy, quick growing, drought resisting, deep green tree. Ideal to use as an ornamental or windbreak tree.

YEW

Japanese—Japanese Yew, spreading T. cuspidata—4-6 ft. A spreading irregular bush form. Can be kept low by shearing.

Japanese Yew, Upright T. capitata—8-12 ft. Broadly pyramidal. May be sheared into any form.

... Plant MEYERS SHADE TREES ...

Ash, Green—A fast growing shade tree. Not easily broken by storms or likely to be injured by pests.

Birch, Cutleaved Weeping—30 to 40 feet. A very attractive ornamental tree with white bark and fine drooping branches.

Birch, European White—30 to 40 feet. A hardy attractive tree with white bark.

Ash, European Mountain—A valuable tree on a small lawn; scarlet berries.

Elm, American White—80 to 100 feet. One of the best of all shade trees. Thrives in almost all situations.

Elm, Chinese—Extremely rapid and dense growing. Suitable for dry soils. Twigs fine and much bent. Leaves small and remain green late. Cut back heavily in transplanting.

Elm, Moline—A very vigorous upright variety of the above with large, close set leaves. Budded and all one type.

Hackberry—strong, rapid growing shade tree.

Locust, Moraine—50 feet. A new patented tree completely seedless and thornless with a pleasing vase shape similar to the elm. The small compound leaves make a filtered shade.

Lombardy Poplar, Populus nigra italica—50-70 feet. The well known very columnar poplar widely planted for tall screens, accents and hedges along drives. The dense upright branches form a slender tapering tree from the ground to a slightly pointed top.

Linden—American Tilia Americana—60 to 80 feet. Large leaves, splendid shade tree.

Maple—Schwedler, Purple Norway—40 to 50 feet. Large, bright purplish-red foliage in spring, turning to bronzy-green in summer and yellow in fall. Budded on common Norway Maple. One of the most colorful shade trees.

Maple—Hard or Sugar—One of the best shade trees which colors brilliantly in the fall.

Maple, Silver—A beautiful fast growing Maple, with compact, sturdy branches and large, dark green leaves. One of the best.

Maple, Crimson King—In the spring the foliage is a rich red and carries this deep red foliage through the entire season.

Red Oak Pin, Quercus borealis—60-80 feet. One of the faster growing of the upland Oaks.

Oak Pin, Quercus palustris—75-90 feet. Grows rapidly in moist soil. Leaves are retained and color splendidly. Transplants easier than most oaks. Lower branches somewhat drooping.

Willow, Niobe Willow—40-50 feet. Golden yellow bark, very long penulous branches. Strikingly beautiful as a specimen or at the waterside. Very rapid grower. Plant early.

... MEYERS HARDY FRUIT FOR IOWA ...

APPLES

EARLY VARIETIES

Seacon—This new apple originated at the Minnesota Fruit Experiment Station. The fruit is large, solid bright red of very fine quality. It ripens in August.
Yellow Transparent—The favorite early apple. Ripens in July. Bears young, heavily and every year.
Red Duchess—Top of the list for summer cooking apples.

FALL VARIETIES

Wealthy—The grand fall apple that does well everywhere. Large size fruit, striped red, tender, juicy, excellent quality.
Fameuse (Snow)—Crimson striped apple, with pure white flesh, juicy and of highest quality. October.

WINTER VARIETIES

Jonathan—Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp flesh.
Haralson—Large good red apple that keeps all winter. Heavy bearer, very hardy.

Fireside—A hardy and productive tree of the Delicious type, equal to it in quality. Suitable for northern sections.

Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

McIntosh, Solid Red—This large red apple is popular in the east, and also in sections of other states. Flesh snow-white of very high quality.

Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily.

Min-Jon—The brand new, four-star "Minnesota Jonathan", originated by the Minnesota State Breeding Farm. It produces beautiful, luscious apples way up to the Canadian line. Dark shiny red all over, with yellow crisp flesh.

CRAB VARIETIES

Whitney—Always called a Crab, but as large as some apples. Red striped fruit of excellent flavor, not tart. Makes delicious pickles and butter.

Select No. 1 Plants

10 for \$2.25; 25 for \$4.95; 50 for \$8.95

Hardy Perennials

Prices, unless otherwise noted of Perennial Plants:
Each \$39 - 3 for \$1.15 - 10 for \$3.50

ASTERS, Hardy—Red, Pink, White, Blue, 50¢ each
—**Hardy Ageratum**—Lovely light purple-blue flowers of fluffy texture from August until frost; fine for cutting, 12-18 inch.

AQUILEGIA, COLUMBINES—Not particular as to soil, endures some shade. Red pink, white, yellow.

CREeping PHLOX (Subulata)—These grow scarcely four inches tall, with moss-like foliage that stays green all winter. In the spring, completely covered with flowers. Thrives in sun or part shade.

Blue, Pink, Red, White

CARNATION—Dwarf 15 in.; compact, double flowers. State variety.

—**Red King**—Bright red.

—**Pink Beauty**—Soft pink.

—**Puff Ball**—White as snow.

CANTERBURY BELLS—Big, bell-shaped flowers loading the 2-ft. spikes. Blooms in June. Blue, Rose and Pink.

DELPHINIUM, Pacific Hybrids—The flowers are immense, 2½ to 3 inches across. The colors range from pure white, sky-blue to deepest indigo-blue, purples, violets, and those exquisite shades of orchid-pink. The plants grow 4 to 7 feet tall with flower trusses often 3 to 4 feet long. Each 59¢; 3 for \$1.25

—**Bellamosa**—2-4 ft. Like above but dark blue all summer.

—**Belladonna**—2-4 ft. Light blue, all summer.

—**Chinese Blue**—1-2 ft. Finely cut foliage. Gentian blue, all summer.

—**Delphinium, Larkspur**—All like limestone soil and good drainage.

GAILLARDIA, Blanket Flower—1 to 2 ft. Flowers have red, yellow, and orange banded.

—**Gypsophila (Baby's Breath)**—2 to 3 ft. Great masses of small white flowers in July-August. Lovely in the garden and fine for cutting.

HOLLYHOCKS—6 ft. towers of blooms, with big, double flowers all summer. Red, Pink or Yellow. State color. Doz. \$1.75

Lychnis Chalcedonica (Maltese Cross)—Very fine durable, old-fashioned flower with dense heads flashy scarlet throughout midsummer.

LUPINUS polyphyllus (Lupine)—Extremely handsome perennial with beautiful palmate foliage and long spikes of brilliantly colored sweet pea-shaped. Plant in well-drained spots with soil that is not too rich and free from lime. Blue, Rose, Red and Mixed shades.

LINUM PERENE, HARDY FLAX—1 to 2 ft. Light, graceful foliage and stems. Pale blue flowers each morning. June-September if cut down occasionally.

—**Morden Lythrum**—It's beautiful—it's hardy—it's grand. Throughout the summer there is a continuous succession of lovely rose-carmine spikes that are ideal for cutting. Originating in Canada, it is completely hardy, thrives everywhere. Plant grows 3 ft. or more tall. 65¢ Each.

MONARDA (Haremint)—Fringed flower heads of blazing scarlet appear on 20 to 30 inch stems in July and August; foliage somewhat aromatic.

PERENNIAL SWEET PEA—(Lathyrus)—Hardy creeper or climber, with lovely clustered flowers, pink to rose-red, throughout the summer. Fine for cutting.
Platycodon grandiflora, Balloon Flower—2 to 3 ft. June-October. Large ball-shaped flowers either blue, White or Pink. Inflated balloon like buds.

Oriental Poppies—2 feet. Large orange-scarlet flowers with black centers. May-June.

PYRETHRUM, PERSION OR PAINTED DAISY—2 to 3 ft. tall. All colors, white to deep red.

SHASTA DAISY—Early Glistening white flowers in countless numbers during June, are a beautiful sight in the garden; grand in bouquets. Mature growth about 15 in. tall.

Sedum Spectabile—Most notable of the Erect Sedums, producing a mound of excellent light green foliage, topped with immense heads of handsome rose-colored flowers in late summer and fall.

STOKESIA (Stokes' Aster)—We highly recommend this as a border plant. Beautiful aster-flowers of lilac-blue are in abundance nearly all summer.

SWEET WILLIAM—These brilliantly colored old-fashioned garden plants are as indispensable today as they were 100 years ago.

—**Pink Beauty**—A sparkling crushed strawberry-pink.

—**Scarlet Beauty**—A vivid scarlet. Very choice and effective. 1½ ft.

YUCCA filamentosa, Adam's Needle—4 to 6 ft. Tall pyramidal clusters of large creamy flowers; June-July. Heavy 3-year plants, 50¢.

CHRYSANTHEMUM

Each 65¢; 3 for \$1.75 6 for \$3.25

Algonquin—Fine, brilliant, double yellow. Mid-September. 18 inches.

Amber Glow—A 2½ inch flower of soft salmon or peach pink. Flowers very profusely. Blooms October

Avalanche—Large well formed double white flowers in great quantities. 2½ to 3 feet. Late September.

Burgundy—Rich deep red. Fully double. Perfect form. Early October. 2½ feet.

Harbinger—Double 2½ to 3-inch flowers of golden bronze. Grow 27 inches tall.

Red Velvet—Double 3-inch flowers of crimson. Grow 24 inches tall.

Lavender Lady—A lovely true lavender, no trace of mauve, purple, or magneta appears under any light condition. Flowers are full, double, 3 inches across. Early October.

Heatherbloom—D. (KRAUS)—Very double; heather-pink, center of shaded rose red with gold tipping. An outstanding flower.

Olive Longland—D. (KRAUS)—Three inch apricot toned salmon-pink. Blooms freely the best of the pastel shades.

September Dawn—Gorgeous deep pink of an autumn sunrise. Large double well formed flowers of 3½ inches.

Arapahoe—Huge rich red flowers. Stems 30 to 36 in. high. University of Nebraska origination.
Cecil Beed—Finest early pink mum.

Blush White—(Nebr.) Beautiful blush white large blooms.

... Plant MEYERS FLOWERING SHRUBS ...

Pink Flowering Almond—4 to 6 feet. Large, double, pink flowers before the leaves.

Barberry, Green Leaf (Thunberg's Japanese) — Ideal for border and low foundation planting. Makes a low, dense, rounded bush 3 feet tall and just as wide. Grows in sun or partial shade. The foliage colors a beautiful bronzy-red in the fall, with bright red berries.

Red Leaved Barberry — 3 to 6 feet. A form with purplish red foliage all summer if in sun.

Cotoneaster Acutifolia Quinceberry—5 to 8 feet. Small glossy, dark green leaves with brilliant fall coloring. Splendid hedge plant.

Gold Twig Dogwood — 6 to 8 feet. Highly decorative with golden yellow bark in winter.

Dogwood, Red-Twigged — 6 to 8 feet. Good foliage coloring red in fall. Bright red bark in winter.

Dogwood, Elegantiissima — 6 feet. Silver edging on the leaves makes a pleasing contrast to other shrubs.

Eunonymus alatus — Winged Wahoo — 6 to 10 feet. Broad corky wings on the twigs, red berries and brilliant fall foliage makes this attractive at all seasons. Unexcelled for specimens.

Forsythia intermedia, Yellow Bells—6 to 8 feet. Arching branches. Blooms very early. Branches may be forced indoors.

High Bush Cranberry — 6 to 10 feet. The fruiting form of the common Snowball. Bright scarlet berries in the fall.

S60 Hydrangea, P.G. — At first the coneshaped flowers are white, then turn pink and bronze. When cut they last for many weeks inside. It thrives in partial shade. Grows 4 to 6 feet tall and is in bloom from mid-summer to frost.

Honeysuckle Zabeli — 10 to 12 feet. Upright growing dark green foliage, rosy red flowers and bright red fruit. One of the best of all honeysuckles.

Honeysuckle Tartarian — 6 to 8 feet. Upright. Pink or white flowers, red berries.

Lilac, Old-fashioned purple — Large very attractive, pleasingly fragrant clusters in May. Most popular and loved lilac of them all. Hardy and vigorous.

Rothomagensis Lilac—Many large blooms; beautiful reddish-lilac. Very Hardy.

Aurea, Golden Mockorange—4-5 ft. A dwarf compact variety with yellow foliage.

Coronarius, Sweet Mockorange—8-10 ft. The old fashioned kind.

Virginalis, Virginal Mockorange—4 to 5 feet. Large, semi-double, fragrant, quite continuous.

Ninebark Golden Leaf — 4-5 ft. A very hardy shrub having white flowers in May and June. Very attractive yellow foliage.

Prunus-cestana, Hansen's Purple Leaved Plum — 6 to 8 feet. Bright redish-purple foliage throughout the season. Purplish-pink blossoms purple fruit. The best red-leaved shrub.

Triloba—Double Flowering Plum—7-8 ft. Clear pink, double rose-like flowers in April-May. Much admired by everyone

Quince—Japanese Flowering, Cydonia japonica—4 to 6 feet. Scarlet flowers before the glossy green leaves.

Snowberry—Red, Indian Current — 3 to 5 feet. Endures densest shade and dry soil. Covered with small red berries in early winter.

Snowberry, White — 3 to 5 feet. Endures much shade, Large white berries in fall.

Spiraea—Anthony Waterer—2 to 3 feet. Very compact, Pink flowers all summer.

Billardi—4 to 6 feet Bright pink fluffy flowers in spikes July-October. Upright grower.

Spiraea, Froebelli — 3 to 4 feet. Resembles Anthony Waterer. More vigorous. Purplish-red fall foliage.

Spiraea, Thunbergi — 3 to 4 feet. Slender, arching branches and fine feathery light green foliage. White.

Sorbfolia Ash Leaved Spiraea—2 to 4 feet. Splendid foliage, white plumes in July.

Vanhouttei Vanhoutte Spiraea—5 to 7 feet. Commonly called Bridal Wreath. White flowers in May. Graceful habit. Thrives almost everywhere.

Tamarix pen randa, Blue-Green Tamarix—4 to 8 feet. Fine feathery blue-green foliage. Racemes of delicate pink flowers.

Weigelia — Vaniceki Red Flowered Weigelia—4 to 6 feet. Rich reddish-purple flowers June-August.

Rosea, Pink Weigelia—4 to 6 feet. Mass of pink in June. For protected places.

Privet (Amoor River) — This is the best of the hedge plants. Can be trimmed to any height, very dense, dark green foliage.

PLANT MEYERS HEDGES

Meyers Hedge Plants should be spaced 12 inches apart excepting for Honeysuckle and Spiraea vanhouttei which may be spaced 2 feet apart. A single row of plants is enough for a good hedge

Darwin Tulips

HIGHLIGHTS OF THE GARDEN IN EARLY SPRING

No other Tulips equal the Darwin Tulips in splendour and usefulness for various purposes. Introduced into Holland some fifty years ago, Darwin Tulips soon found their way in the gardens all over the world, the demand still increases from year to year. Blooming in May, carried on strong, erect stems, the Darwin Tulips with their stately beauty and gorgeous colors, are ideal for all garden purposes and excellent for cutflowers. Many varieties can also be successfully forced for cutting and in pots and pans. Tulips will produce a rich crop of clean strong flowers before the bulbs grown outside are in bloom.

Johann Straus — white, outside blotched red	1.20	2.75		
Cesar Franck — deep yellow, outside red with yellow edge	1.20	2.75		

Fantastic Blue Parrot

The beautiful Parrot Tulips are curious novelties attracting great attention wherever planted. Their petals are shaded and fringed along the edges and capriciously marked with splashes of green. Their artistic form and coloring make them interesting and eye-catching when planted in clumps here and there in the border, in front of evergreens, or when used in floral arrangements. Height 16 to 28 inches.

Blue Parrot — Bright violet, flushed steel-blue. Large fringed flowers on tall, sturdy stems	10	50	\$1.00	\$4.75
Fantasy — Clear rose-pink. Petals deeply lacinated and scalloped	1.00	4.75		
Red Champion — Bright crimson, shaded rosy-red	1.10	5.00		
Texas Gold — Deep yellow, sport of Inglescombe Yellow	1.00	4.75		

Peony Flowered Tulips

The huge flower heads, which are packed with numerous flower petals, resemble peonies. The massive flowers are supported on strong stems. The short-stemmed varieties are the Early-flowering kind. The long-lasting qualities of the Peony Tulip make them particularly valuable for bedding purposes.

Electra—Claret-red, shaded carmine. Height 12"	10	50	\$1.10	\$4.75
Mr. Van Der Hoeff—Large, pure yellow flower. Height 12 inches	1.05	\$4.50		
Peach Blossom—Deep rose-pink, flushed white. Height 12"	1.15	5.00		

Grape Hyacinths

Very attractive and popular for mass planting and in rockgarden, they are quite hardy. The variety armeniaceum and others can well be forced and are also recommended for corsage flowers.

10 for 39¢ 50 for \$1.75

Scilla

Scilla sibirica is very popular for planting in the garden, for mass planting and in rockgardens. They make a charming effect in early Spring. The campanulata varieties are fine for naturalising amongst shrubs, also in borders and rockgardens.

10 for 60¢ 50 for \$2.70

Snowdrops

Attractive little flowers blooming early in Spring. Splendid especially when planted in large patches or masses. Can be left in the garden year after year where they multiply freely. Ned some slight covering during the winter.

10 for 59¢ 50 for \$2.75

Crocus

These varieties will produce large, strong flowers which remain erect for the entire blooming season. They will thrive in lawns, flower beds rock gardens and under trees, in either sun or shade.

Purpurea Grandiflora	10	50	\$.55	\$2.50
Snowstorm. White	.55	2.50		
Yellow Mammoth. Golden	.55	2.50		

Daffodils - Narcissus

King Alfred—Rich, lustrous golden yellow throughout	10	25	\$1.35	\$2.95
Fortune—Clear yellow perianth with large orange crown	1.35	2.95		
Clamor—Perianth white, cup yellow, orange red edge	1.35	2.95		
Queen of Bicolors—Perianth white, trumpet canary yellow large flowers, early	1.35	2.95		
Texas—Pale yellow with orange red petals through the center. Very beautiful. Early	2.45	5.25		

Exhibition Hyacinths

These large-size bulbs produce enormous flower spikes, densely packed with dainty, bell-shaped flowers and highly perfumed. The following varieties are especially recommended for pots and window boxes, as well as for garden use.

City of Harlem.—Yellow	—	Marconi — deep rosy pink
Jan Bos—Bright red	—	Perle Brillante—fine lavender blue
3 for 95¢	10 for \$2.80	50 for \$11.75
